

Game Time

Spinning Arrays

Ready

You will need:

- paper clip
- centimeter grid paper
- paper and pencil

Set

Place the pencil with the paper clip in the center of the spinner shown.

Go!

- 1 Player 1 spins the spinner 2 times and uses the numbers to make an array on grid paper.
- 2 Player 1 finds the total number of squares of the array and writes it on the paper as his or her score. Player 2 checks the answer.
- 3 Take turns repeating the activity.
- 4 After each turn, add the points together. The first player to reach 200 points wins the game.
