

Name _____ Date _____

Game Time

Rolling Products

Ready

What you will need:

Number cube, pencil
and scrap paper

Set

Draw separate columns on the paper for each player to keep score.

Give each player some scrap paper and pencil to work out problems.

Go!

- 1 Player 1 rolls the number cube, records the number on his scrap paper.
- 2 Player 1 rolls number cube again and multiplies it with the first number.
- 3 Record the product as points for Player 1.
- 4 Player 2 takes their turn and play continues until one player reaches 100 points.
- 5 For added fun, have each player roll a third time and multiply three factors. Increase the final points needed to 200.
